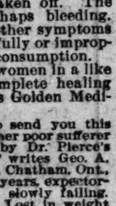
VOLUME CVI.---NO. 209. ALEXANDRIA, VA., MONDAY EVENING, SEPTEMBER 4, 1905. PRICE 2 CENTS.

Let go or die. That's the alternative of the shipwrecked man with the money bags. A great many people have a like alternative before them. Business men come to a point where the doctor tells them that they must "let go or die." Probably he advised a sea voyage or mountain air. There's an obstinate cough that won't be shaken off. The lungs are weak and perhaps bleeding. There is emaciation and other symptoms of disease, which if unskilfully or improperly treated terminate in consumption.

Thousands of men and women in a like condition have found complete healing by the use of Dr. Pierce's Golden Medical Discovery.

"It gives me pleasure to send you this testimonial so that some other poor sufferer may be saved, as I was, by Dr. Pierce's Golden Medical Discovery," writes Geo. A. Thompson, of Sheldon Ave, Chatham, Ont., Canada. "I had a cough for years, expectorated a great deal, and was slowly failing. Was losing flesh every day. Lost in weight from 150 pounds down to 128. My flesh got soft and I had no strength. Did not say anything to any one but made up my mind that the end was not far off. One day my wife was reading in the 'Common Sense Medical Adviser' about Dr. Pierce's Golden Medical Discovery, and I said, *that* sounds more like common sense than anything else that I had heard. I at once bought a bottle of your famous remedy and before I had taken half of one bottle I felt better. Took thirteen bottles and it made a new man of me. I gained sixteen pounds and never have had a cough since. I feel splendid and give all the credit to your medicine."



Given away. The People's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing *only*. The book contains 1008 pages, over 700 illustrations and several colored plates. Send 21 one-cent stamps for the paper-bound book, or 31 stamps for the cloth bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

Pierce's Pleasant Pellets cure bad, foul stomach and constipation and so *help* to cure nearly every disease of mankind. They regulate, tone up and invigorate Stomach, Liver and Bowels.

UNHAPPINESS DISPELLED.

**Men and Women Unanimous About It.**

Many women weep and wail and refuse to be comforted because their once magnificent tresses have become thin and faded. Many men incline to profanity because the flies bite through the thin thatch on their craniums. It will be good news to the miserable of both sexes, to learn that Newbro's Herpicide has been placed upon the market. This is the new scalp germicide and antiseptic that acts by destroying the germ or microbe that is the underlying cause of all hair destruction. Herpicide is a new preparation, made after a new formula on an entirely new principle. Anyone who has tried it will testify as to its worth. Try it yourself and be convinced. Sold by leading druggists. Send 20c. in stamps for sample to The Herpicide Co., Detroit, Mich.

**Book of Common Prayer.**

If it be true that imitation is the sincerest flattery, the Episcopal Church must feel highly complimented by the general disposition of other churches to adopt more or less of its liturgy, and especially by the appearance of "The Book of Common Worship," which is to be the book of common prayer of the Presbyterian Church

The Book of Common Worship is an imitation, part for part, of the Book of Common Prayer, and the imitation is not only designed, but so close that it is surprising that the Episcopal service was not adopted bodily.

The act of the General Assembly in compiling and authorizing this form of worship, although its use is not made compulsory, shows that a revolution has taken place in the Christian world in the last 25 years in regard to forms of worship and written prayers.

Many middle-aged people can remember when all of the Protestant churches except the Episcopal Church regarded a liturgy with something like loathing, as if inseparably connected with hypocrisy and insincerity in worship.

For the last 25 years there has been a marked reaction from the excessively simple services of most of the churches, and a growing inclination to borrow separate features of the Episcopal liturgy. It has become quite fashionable to preach in robes, to sing the Gloria, to read responsively and to consecrate the offertory. In these approaches to the Episcopal forms the Presbyterian Church, which was for centuries the bitterest opponent of forms and ceremonies, has taken the lead, and now comes out boldly with a whole Book of Common Worship.—[Chicago Chronicle.

**Suicide for Circus Rider.**

A tragic story of the love affair of a young German nobleman and a lady circus-rider comes from Budapest. Mlle. Feodora, as she is known, though her real name is Fraulein Weissenbach, while performing in Dusseldorf, so charmed young Baron von Leyden, an officer in the German army, by her beauty and her horsemanship, that when the circus left Dusseldorf, the Baron obtained leave of absence in order to accompany her to Budapest, and there he promised to marry her. He returned to his home to make the necessary arrangements, but met with the strongest opposition both from his family, who wished him to marry a daughter of a deceased millionaire, and from the military authorities, who even refused to allow him to resign his commission Baron von Leyden then appealed to the Emperor direct, but only to be informed that if he married Mlle. Feodora he would be cashiered and degraded. In his despair the young man resolved to take his life. A day or two ago Mlle. Feodora received from him a letter to say that he had resolved to shoot himself when out hunting, and the same day she read in the newspapers that the Baron had accidentally shot himself with his own gun. On Friday Mlle. Feodora threw herself in front of an electric train at Budapest, but the presence of mind of the driver frustrated her attempt to commit suicide, and she was picked up only slightly injured.

Mlle. Feodora was the daughter of a German officer of high rank, but eloped with a student to Paris, when only 17 years old. On her return to Germany her family would have nothing to do with her, and she was forced to join a circus in order to make a living.

**Cows Ate Their Clothing.**

For the purpose of agreeably filling in a recent hot afternoon four Ottervein, Ind., girls took their two out-of-town guests to a secluded spot on the Wabash for a swim. On arriving at the chosen place they constructed an inclosure with sheets which they had brought along and proceeded to divest themselves of their clothing and don bathing suits. Soon the six girls were disporting in the cool waters of the Wabash.

While this was going on a herd of cows wandered lazily up to the improvised bathing-house, stuck their noses in and found various articles of feminine wearing apparel hanging upon a barbed-wire fence. Possessed of a ravenous appetite, the animals innocently began to devour garment after garment, and when the feast was finally concluded there were not enough articles left to properly dress a French dancing girl.

The young women returned to the scene, saw the dreadful catastrophe that had befallen them, and proceeded to weep. Their cries attracted the attention of a farmer on a road not far away, and he approached the shawl tent. The occupants called to him to keep a hundred yards away, and he did so.

Then they told him what had happened, and he made a two-mile trip to his home, obtained some of his daughters' clothing and had the girls take the garments to the marooned bathers on the river. By the time the unfortunate and mosquito-bitten young women returned to their homes it was very dark, and frantic parents were about to send out searching parties.

**Incredible Brutality.**

It would have been incredible brutality if Chas. F. Lemberger, of Syracuse, N. Y., had not done the best he could for his suffering son. "My boy," he says, "cut a fearful gash over his eye, so I applied Bucklen's Arnica Salve, which quickly healed it and saved his eye." Good for burns and ulcers too. Only 25c at E. S. Leadbeater and Sons, drug store.

THREE JURORS CURED

**Of Cholera Morbus with One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.**

Mr. G. W. Fowler of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Clebourne county, Alabama. He says: "While there I ate some fresh meat and some souse meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one twenty-five cent bottle cured the three of us." For sale by Gibson & Timberman and W. F. Creighton & Co.

**A Laxative Cough Syrup.**

"A cold or cough nearly always produces constipation—the water all runs to the eyes, nose and throat instead of passing out of the system through the liver and kidneys. For the want of moisture the bowels become dry and hard." Kennedy's Laxative Honey and Tar is the original Laxative Cough Syrup. It meets and corrects the above conditions, by acting as a pleasant cathartic on the bowels—expels all colds from the system and cures all coughs, croup whooping coughs, La Grippe, bronchitis, etc. Sold by W. F. Creighton & Co., 401 King street.

**Numerous and Worthless.**

Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co. of Chicago discovered some years ago how to make a salve from Witch Hazel that is a specific for Piles. For blind, bleeding, itching and protruding Piles, eczema, cuts, burns bruises and all skin diseases DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine. Sold by W. F. Creighton & Co., 401 King street.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

MONDAY EVENING, SEP. 4, 1905.

A THOROUGH cleaning out of the Government Printing Office should follow the summary dismissal of Foreman Oscar J. Ricketts, of the printing department, and Foreman Hay, of the job department, by Public Printer F. W. Palmer. The two discharged men have retained lawyers to defend them, and have appealed from the action of the public printer to both the President and the Civil Service Commission. It is said that friends of Ricketts in Congress, headed by Speaker Cannon, will insist upon a Congressional investigation of all the methods and practices in the printing shop. The report of the Keep commission, which recently investigated the purchase of typesetting machines by Public Printer Palmer, has been in the hands of the President for the last two weeks. What its contents are is not publicly known But it is known, from the testimony heard, that the printing office has been ruled by two cliques, one headed by Ricketts, the other by the public printer. The friction has tended to demoralize the working forces and many believe that the department is corrupt to the core. It is therefore almost certain that the outcome of the affair will be a complete investigation of the whole printing office, and the probable removal, not only of the two foremen, but of Palmer as well. Congress has already ordered a committee to ascertain why the cost of government printing has increased so largely in the last few years. One of the reasons is now declared to be the general demoralization of the office, caused by the warring factions, and the division of feeling due to the rivalry of typesetting machine companies.

THE answer of the forty-nine directors of the Equitable Assurance Society of New York, to the charges of graft made in connection with a suit brought by the Attorney General of the State was the decision to join with the State in asking for a full investigation in court. The admission is made that some of the officers had been guilty of improper and illegal acts. They admit the $250,000 loan to the Depew Improvement Company, and the $685,000 loan to the Mercantile Trust Company. They also say that under the guise of salaries excessive fees were given to certain officials, but that this was unknown to the Board of Directors. The rascality of the managers of the Equitable was truly monumental.

THREE HUNDRED members of the cigarmakers' union at Tampa, Fla., have left the employ of a cigar manufacturer because a reader in the factory was prevented from reading extracts from the alleged anarchistic paper Terra, published in Havana. It is the custom among the Tampa cigarmakers to employ a reader while they work. This calls to mind a conversation the writer of this paragraph had with a very intelligent working man in Tampa two years ago. He said that Tampa was cursed by strikes and that one was calculated to be called there at any moment and on the most ridiculous pretext.

THE Interior Department has dismissed Special Inspector George F. Wilson on account of the disclosures made during the investigation of charges against Senator Mitchell, of Oregon. Wilson admitted that he had received the alleged bribes for favorable recommendations in some cases, but claimed that he had taken the money to entrap the bribers. The department should now turn its attention to some of the land grabbers in Nebraska. Col. Mosby knows all about them but he was "transferred" from that State because his knowledge, if made public, might injure the republican party!

A SEATTLE milling company has word from Hong Kong, China, that the boycott of American goods has completely paralyzed the flour trade between Pacific ports and China, and that no sales of any importance have been made since July 18, while orders for September have been canceled. The people of the Pacific slope are more than any others responsible for the Chinese boycott. Now that they are feeling its effects they are coming to their senses and possibly will be disposed for commercial reasons to become less proscriptive of the orientals.

THE JURY at Wheaton, Ill., has brought in a verdict of $100,000 damages against the city of Chicago in favor of the Panhandle Railroad for the burning of its freight cars during the Debs strike of 1894. It was argued that the city was responsible for the loss because of its failure to give adequate protection. Such verdicts will have a tendency to make the authorities in cities more careful of preserving order and protecting property which is taxed to support and uphold the law.

THE National Afro-American Press Assciation, in session at Detroit, last week, adopted an address to the people of the United States, which resents the statement that this is a "white man's country," inasmuch as the constitution places all citizens on an equality before the law. Such resolutions do the negro race no good and whenever and wherever they act on the theory that this is a black man's country, they come to grief.

THAT the orders from Peking instructing provicial officers to repress the boycott against American goods are not taken seriously, was indicated at Shanghai last week, when Chang Chien fined certain dealers for alleged breaches of the boycott. He then ordered all dealers to sign an agreement not to buy any more American goods from foreign merchants of any nationality.

## From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., Sept. 4.

At work at his desk in the Government Printing Office this morning, Foreman Oscar J. Ricketts showed no more signs of vacating his position in accordance with the request Friday of Public Printer Palmer than if instead of a request for resignation the letter had been one repeating the ofttimes commendation Ricketts' was given in the days when the two were the closest friends. Foreman L. C. Hay is taking a tack similar to that of Ricketts. Foremen Hay and Ricketts were at the office to attend to urgent business, despite the fact that it is Labor Day. The next move is expected tomorrow noon, the time given the foremen to hand in their resignations and when, if the requests are not complied with, Public Printer Palmer informs the foremen that he will remove them. But through the civil service commission the matter has been taken to the President and there may be radical news from Oyster Bay in regard to the printery situation. It would be no surprise to Washington should the name of a new public printer be announced, and if during a reorganization scores would lose their positions. Several candidates to succeed Palmer are in the field; among these is said to be Ricketts. Back of him are counted the leaders in the House and Senate. The Congressional representation from the middle west is said to be a unit for him.

Joseph Mangum, about 35 years old, employed by the Washington Railway & Electric Company, was electrocuted this morning while cleaning a trolley car slot near Delaware Avenue and C street. Mangum was removing the dirt which had drained into the slot. It is supposed that his shovel struck the electric conduit. His death resulted instantly. His home was at Capitol Heights, Maryland.

Labor Day found government departments closed, the streets deserted and the great mass of the population spending the day in the country and at the lower river and Chesapeake bay resorts. The principal event of the day in this vicinity was the Montgomery County Athletic Association track meet at Washington Grove, Md, which drew several hundred athletes and a host of friends from neighboring sections of Maryland and Virginia as well as the District of Columbia. The weather was cloudy and rain fell during the morning; later the skies cleared. Under the caption "Labor Day, 1905, Retrospect and Prospect," Samuel Gompers, President of the American Federation of Labor, discusses that question in the federationist organ of the association. "May you, the toilers of our land," he says, "learn your full rights and have the making and the manhood to achieve them." For the improvements which have come, increased wages, shorter work days, better material conditions, "leisnre to live, leisure to love, leisure to taste our freedom," he gives the credit to organized labor.

The State Department has called upon J. Martin Millet, consul at Aix-la-Chapelle, Germany, who is now on leave of absence in this country, for an explanation of the circumstances upon which the German government bases its refusal to grant him an exequatur. It is stated that the German government's objection to Mr. Miller arises out of certain newspaper and magazine articles he wrote previous to his appointment as consul in which he cast reflections upon German policies and conduct in China, Samoa and elsewhere. Without an exequatur Mr. Miller would, of course, be unable to represent this country at Aix-la-Chapelle, and if the objections of the German authorities can not be removed, he will be recalled.

Discovery has been made that the waters of historic Franklin Park spring, which are piped several blocks to supply the White House with drinking water, have become contaminated for the first time in the memory of the oldest inhabitant. The spring has a large flow and its output is piped to about a dozen points in the centre of the city, as well as to the White House.

U. S. Consul General Rodgers, at Shanghai, cables the State Department that "northern trade is opening up for American goods in China and the boycott is apparently subsiding."

Another case of smallpox developed at the jail yesterday.

### Judge Lewis.

The Department of Justice has received the resignation of Lunsford L. Lewis, United States attorney for this district, and republican nominee for Governor of this State, but acceptance of the resignation has been deferred. It is certain that nothing will be done toward accepting until Attorney General Moody returns to Washington. He will take it up with the President, but it is known to be the desire of Mr. Moody not to accept the resignation, but to simply hold it in abeyance until the November election, when it will not be accepted is almost certain in the event that Judge Lewis is defeated for Governor. Until the resignation is accepted Judge Lewis will draw the salary of a United States attorney.

### Fire at Adrianople.

Fire at Adrianople Saturday caused enormous damage. Seven thousand houses were destroyed in the Greek, Armenian, Bulgarian and Jewish quarters. There are many victims. With the exception of the Catholic Church, the mosque, the schools, a convent and the telegraph offices, few of the buildings burned were insured.

Adrianople is an important city of European Turkey, built partly on a hill and partly on the bank of the Toonja, near its confluence with the Maritza, 137 miles northwest of Constantinople. It has a population of 150,000, and is considered as the second capital of the empire.

The ferryboat George H. Power, running between Hudson, N. Y., and Athens and the steamer Young America, plying between Hudson and Coxsackie, collided yesterday evening. Both boats were on their way to Hudson from Athens. The collision occurred just below the city, as both were attempting to pass through a narrow strip of water between the flats and the lighthouse. The Young America, which is a small steamer, was sunk. Four persons are reported as drowned.

On the point of capture by a sheriff's posse, Peter Pitts, the maniac who terrorized the countryside from Avon Beach to Lorain, Ohio, for three days, is dead by his own hand. He shot himself in the head Saturday in full view of the band of armed farmers who were pursuing him and sank dead upon the ground. The three days in which he ran amuck through a territory of 20 miles in extent, firing upon men and women, burning farmhouses and driving the population from their homes to places of safety in the city, marked one of the strangest and most sensational episodes in the history of the county.

### TREATY COMPLETED.

Dispatches from Portsmouth, N. H., says that the treaty is completed. It consists of a preamble and seventeen articles, the substance of all of which has heretofore been published. But there were still differences about the wording of the protocol of the last sitting, which must be signed before the treaty itself can be signed. The Japanese presented a protocol to which the Russians took exception. The differences, however, are expected to be straightened out today, and it seems quite possible the treaty will be signed this afternoon. M. de Martens, who is extremely anxious to get back to Russia, has engaged passage on La Lorraine, sailing from New York Thursday.

The seventeenth and concluding article of the treaty provides that the exchange of ratifications shall occur within fifty days after its signature by the plenipotentiaries.

The plenipotentiaries have invited Gov. McLane to witness the signature of the treaty, and he has been telegraphed for.

The Japanese hope to get away Tuesday and the Russians Tuesday or Wednesday.

### J. W. Webster.

Alexandria, Va.

Dear Sir: But few of the men who sell the hundred different paints in the market know much about them; All Devoe agents have a state chemist's certificate telling just what it's made of; they know a good deal, not only about Devoe but the rest; we see that they do. We buy every paint, that has any sale, and analyze it. Our agent finds-out all about it.

When we know what a paint is made-of, we know how it will act; we know how far it goes, and how long it wears.

Devoe is the standard; call it 100. The best of the rest is about 75; the worst about 25; the rest are between.

But the men, who sell them, don't know any better. They know what the maker tells them. That is; they know that he tells them. They don't know whether he tells them the truth or not.

The business is not conducted on knowledge; the less they know, the more comfort, able they are.

Yours truly,

### THE TREATY.

Portsmouth, N. H., Sept. 4.—At 8 o'clock this morning Assistant Secretary of State Peirce was called upon for special red tape with which to tie up the Russian-Japanese treaty. He was informed that the engrossment of the document had been completed and ready for the signatures of the envoys. The clerks worked all night. The exact time when the signatures are to be attached has not definitely been fixed. There is a divergence of opinion as to the wording of the protocol of Tuesday night with which the peace agreement was entered into. As soon as the views on this point are harmonized and the Russian and Japanese present identical drafts, the protocol will be at once signed. With this work completed the way is cleared for the signing of the treaty.

There are four pages of treaty upon each sheet of paper. Each page is divided into two columns, in one of which appears the French version and in the other the English text. The French version in case of dispute will be the final one. Both the Russians and Japanese on their way home will prepare copies of the treaty in their own language.

Extraordinary precautions have been taken to prevent the text of the treaty from becoming public.

The treaty provides that within fifty days from the date of signature, ratifications shall be exchanged by telegraph. This exchange will be conducted through the American Ambassador in St. Petersburg, who will notify the Japanese government of the Czar's ratification, and by the French Minister in Tokio, who will notify the Russian government of the Mikado's ratification.

The signing of the treaty will be without ostentatious ceremony. It has been arranged, in addition to the ten envoys, there will be present, by invitation, Assistant Secretary of State Peirce, who represents the President, the Governor of New Hampshire, Mr. McLane; Admiral Mead, commandant of the Portsmouth navy yard, and Captain Winslow, of the Mayflower. It had been decided that there shall be no photograph taken of the ceremony.

Unless there is a change in the present plans, the Russians will hold a special thanksgiving service shortly after the signing of the treaty. For this purpose, Christ Episcopal Church in Portsmouth has been offered and there is in contemplation the bringing here by special train, from New York, of a Russian priest and choir.

Portsmouth, N. H., Sept. 4.—It is now practically determined that the signing of the peace treaty will be postponed until tomorrow. The Japanese are ready to sign this afternoon, but the Russians are not. It is also announced that the protocol of last Tuesday's meeting will be signed at the navy yard just prior to the signature of the treaty.

The Japanese envoys have distributed $1,000 in tips to all who have in any way been connected with them during the peace negotiations.

### Severe Storm.

Utica, N. Y, Sept. 4.—One of the worst storms that ever visited Central New York swooped down upon this section last night, and the resulting damage will exceed $200,000. The storm took the character of a cloud burst and raged with the greatest severity near Norwich and Sherburne, where the Delaware, Lackawanna and Western, and Ontario and Western lost their tracks and roadbeds for a distance of thirty miles, swept away, bridges washed out, and between which stations an Ontario & Western coal train was wrecked, causing the death by drowning of the engineer, and the serious injury of others of the train crew. Mere brooks were turned into raging torrents near Sherburne and the reservoir which supplies that village, burst at midnight sweeping everything in its path. At Schuyler lake Herkimer creek overflowed it boundaries and flooded the village to the depth of 3 and 4 feet. Such was the danger that the church bells were rung to warn the people to get to places of safety. The damage by flood is estimated at $5,000 in Schuyler lake. The stations between Waterville and Norwich are under water to a depth of three feet.

### China Wants Kiao-Chau and Wei-Hai-Wei.

Peking, Sept. 4.—The Chinese government is engaged in an endeavor to open negotiations with Germany and Great Britain for the restoration to China of Kiao-Chau and Wei-Hai-Wei, points which are now held by the two countries respectively. In diplomatic circles the opinion is held that England will be willing to give up Wei-Hai-Wei, but that Germany will probably refuse to part with Kiao-Chau. Recent reports have said that Great Britain was already taken steps to abandon Wei-Hai-Wei. Kiao-Chau was seized by Germany in 1897, and on March 6, 1898, the town, harbor and district were leased to her for a period of 99 years. It is very doubtful whether the Kaiser will be willing to give up this concession.

### Fighting Renewed.

Berlin, Sept. 4.—Fighting between the German troops and the natives in East Africa has been renewed according to advices received here today. An engagement is reported near Kilwa, German East Africa, between 350 German troops under the command of Lieutenant Marwitz and 2,000 negroes. The latter were routed with a loss of forty killed and 285 wounded. The German losses were one killed and 19 injured.

### Correspondent Killed.

Berlin, Sept. 4.—News reached here today that Baron Binder Kriegelstein, a famous war correspondent, who has been in Manchuria, as the special correspondent of the Lokal Anzeiger, was killed at Harbin in a rifle accident. Baron Kriegelstein passed through the entire campaign in Manchuria without injury only to meet his death after the practical conclusion of hostilities.

### A Singular Suicide.

Chicago, Sept. 4.—Closely followed by detectives seeking him for the attempted murder of his divorced wife and her husband two hours earlier, George C. Miller, once a wealthy board of trade operator, braced himself against the door of his room at which policemen were hammering for admission last night, and shot himself through the head. He died later without making a statement. The suicide was the consequence of a shooting earlier in the evening, in which Louis N. Hill, a stock broker, was the victim. That the affair may solve the Mize murder mystery is the belief of the police, who, from admissions made by Mrs. Hill, has learned that Miller had been seen in the district in which Mrs. Mize was killed looking for his former wife, whom, it is said, he had sworn to kill on sight. The resemblance between Mrs. Hill and the murdered woman is remarkable, and the mistake of an enraged man may explain many of the heretofore inexplicable details of the murder near the Del Prado hotel, which has baffled the police.

### Discussing Government Printing Office Affairs.

Oyster Bay, N. Y., Sept. 4.—President Roosevelt is discussing the printing office tangle today, with Civil Service Commissioner Cooley. Oscar J. Ricketts, the foreman of the printing, and L. S. Hay, head of the job division, of the big printing shop, who were ordered to resign by Public Printer Palmer, have made a report to the civil service commissioner, denying Mr. Palmer's right to separate them from their jobs, and, it is understood Mr. Cooley has brought with him the Ricketts-Hay memorial. The President and Mr. Cooley will probably reach some conclusion in the matter during the afternoon.

### The Taggart Divorce Case.

Wooster, O., Sept. 4.—That arguments in the Taggart divorce case will be reached by tomorrow noon seems certain. It is said Captain Taggart is so confident of being awarded the custody of the boys that he has partly arranged for a residence at Columbus, where he is be stationed, so as to have a home where he can see the boys are sent to school, and properly raised. Mrs. Taggart is equally sure of being given the custody of the boys, and she has arranged to make her home for some time to come with Surgeon Vose and wife, of Chicago, where the little boys could be sent to a private school.

### Rockefeller in a Wig.

Cleveland, O., Sept. 4.—John D. Rockefeller is renewing his youth. He appeared at the Euclid Avenue Baptist church Sunday wearing a wig. The congregation did not recognize the oil king. He wore a new suit, a Prince Albert of stylish cut. His light vest was a perfect fit, and the pearl gray striped trousers, apparently fresh from the tailor's box, set off a costume that was decidedly spruce and youthful. He held in his hand a pair of light tan gloves and over his arm was a fall coat of dark gray. A light colored fedora hat surmounted the head of the richest man in the world.

### Infant's Body Found.

New York, Sept. 3.—In the discovery of the dead body of a three year old girl within the doorway of the tenement at 464 Eleventh avenue, the police believe that murder has been committed, and Captain Ward has detailed every available detective on the case. The little girl was a pretty child and her clothing, rich with lace, indicated that she belonged to wealthy parents. The child's body was covered with bruises and penknife cuts. Both legs had been broken near the knees. So far the identity of the child, the whereabouts of her assailant, and the motive for the crime are mysteries.

### Liberals and Moderates Clash.

Havana, Sept. 4.—A clash between the members of the liberal and moderate parties resulting in the serious injury of several of the liberals occurred last evening, at Guanabacoa, a seaside resort, five miles from here. During the melee several shots were fired and stones were thrown by the fighting partisans. The fight occurred while the liberal's were celebrating the visit of General Jose Miguel Gomez, their candidate for President. Moderates interfered with the celebration, and this brought on a general fight between the opposing factions.

### The Yellow Fever.

New Orleans, Sept. 4.—The yellow fever scare is now being reduced to the minimum, so far as this city is concerned, for there were only 29 cases yesterday and three deaths.

Jackson, Miss., Sept. 4.—The State Board of Health is now apprehensive that yellow fever has been scattered along the entire gulf coast, as one case was reported at Handsboro this morning. New cases last night: Gulfport, 5; Mississippi City, 2; Pearlington, 1; Vicksburg, 2.

### Anglo-American Alliance.

St. Petersburg, Sept. 4.—The Novo Vremya in an apparently inspired article today declares that an Anglo-American Japanese alliance has practically been established in order to paralyze Russia in Asia. Russia, the paper declares, is bound to offset this movement with another combination, but the attitude of France is very strange, as she appears to ignore the value of a Russian alliance.

### Rumored Revolution.

London Sept. 4.—The Central News says it is reported in Rome that a revolution has broken out in Japan. Dissatisfaction with the terms of peace agreed to by the Japanese envoys at Portsmouth is supposed to be the cause of the reported trouble. In well informed circles, however, the rumor is regarded as absurd.

### General Linevitch.

St. Petersburg, Sept. 4.—According to the Novoe Vremya General Linevitch, commander-in-chief of the Russian forces in Manchuria, will retain command of all the naval and military forces in the far East, after the treaty of peace is formally signed. He will be given the title of Imperial Lieutenant.

### The Cholera.

Berlin Sept. 4.—The cholera situation is growing worse as the disease is spreading. Eighteen new cases have been reported from the provinces of Posen and Silesia, in Prussia. The cases have made their appearance in twelve districts of these provinces, which are widely separated.

The Athletics shut out Washington in the morning game at Philadelphia by a score of 5 to 0.

### Labor Day.

New York, Sept. 4.—The usual Labor Day parade was held today, starting from 59th street and Fifth avenue shortly after 10 o'clock. Nearly 60,000 people were expected to be in line, but owing to the inclamency of the weather the number of paraders fell far below those figures. The women attracted much attention. A novel idea was introduced by the Theatrical Employes. This organization led 24 horses, 12 white and 12 black, all profusely decorated with flowers and flags.

### Bomb-throwing in Barcelona.

A bomb exploded with terrific force yesterday afternoon on the Marine Parade, at Barcelona, which was thronged with holiday makers. A panic ensued and the air was rent with the shrieks and groans of the victims. Twenty-one persons, including one woman, were killed and five others were mortally wounded. The bomb was conical in shape and was covered with cement. The perpetrator of the outrage is unknown. One witness states that early yesterday morning a child was seen to deposit a bomb at the foot of a tree. Another version is that the bomb was placed at the foot of a tree yesterday afternoon and that the man who was seen to place it their was injured by its premature explosion.

After the explosion Panama hats, parasols and wearing apparel were found strewn about, and here and there were pools of blood. The detonation was heard throughout the city and the force of the explosion threw a coachman from the seat of his carriage 60 yards away. The bomb was filled with nails and scrap-iron.

A workman covered with blood while running away from the scene was pursued by a mob which believed him to be responsible for the outrage, and being caught was nearly lynched. The man was taken to a hospital, where he denied he had exploded the bomb.

### Virginia Republicans.

The republican State campaign was formally opened at Harrisonburg Saturday. The chief address was made by the candidate for Governor, Judge L. L. Lewis, but speeches were also made by Col. Campbell Slemp, Mr. John Acker, candidate for State treasurer; Col. S. Brown Allen, of Staunton, and by State Chairman C. Bascom Slemp. In his speech Judge Lewis said the democratic party had only succeeded in keeping the voters of Virginia in the democratic columns by the unfounded fear of negro supremacy, but that now even that argument was taken from them and that if the voters wanted to improve their state of affairs they could do it by putting the republican party in power. He paid a tribute to the fairness and courtesy of the democratic papers in this State during the present campaign, and said that they had misrepresented neither republican candidates nor platform, and expressed the hope that the campaign would be conducted on a high plane.

### Rioting at Libau.

The departure of reservists from Libau Saturday night was marked by socialistic rioting, in which 10 persons were killed and 50 wounded. The agitators fired from a house upon the military, who replied with a volley. The cavalry then charged, using their sabers on the crowd. A detatchment of troops stormed the house from which the shots were fired. One policeman was killed and several soldiers were wounded. Twenty-one wounded persons were taken to the hospital. The reservists did not anticipate that the rioting would occur. They had just been entertained by the city and were accompanied by their wives and children. There were many innocent victims, women being included among them.

Libau, a town on the Baltic Sea, has been the scene of a number of Russian revolutionary demonstrations the last few months. The mutinous disorders in the Black Sea fleet occured at Libau.

### Lieut. Lee at White House.

President Roosevelt has informed the War Department that he desires that Lieut. Fitzhugh Lee, jr., Twelfth United States Cavalry, be assigned to special duty in Washington. Lieutenant Lee will take the place of Lieut. Granville R. Fortesque, Tenth United States Cavalry, who is a relative of the President and for two years has been stationed in Washington, his principal duty consisting of making himself generally useful at the White House during the social season and acting as an assistant to Col. S. S. Bromwell. Lieutenant Lee was recently ordered to the Philippines, but a telegram was Saturday sent to San Francisco directing that he should be held there for further orders. Lieutenant Lee is a son of the late Gen. Fitzhugh Lee and a grandnephew of Gen. Robert E. Lee.

The Sacred Heart Catholic Church at La Plata, Md., was dedicated by Cardinal Gibbons yesterday. The church was built in 1901, His Eminence, Cardinal Martinelli, proablegate of the Pope to this country at that time, laying the cornerstone. The church is a brick edifice, built altogether by contributions of Catholics in and around La Plata, and is in charge of the Jesuit priests, Rev. Father Mulvaney now being pastor.

### Sun and Tide Table.

Sun rises tomorrow at 5:31 a. m. and sets at 6:24 p. m. High water at 11:38 a. m. and 12:04 p. m.

### Weather Probabilities.

### Death of Mrs. Miller.

Mrs. Caroline Hallowell Miller, widow of Francis Miller, a well-known attorney of Washington and Montgomery county, Md., died Saturday at her home, Stanmore, Montgomery county, aged 74 years, after a lingering illness. She was a daughter of Benjamin Hallowell, the popular educator and scientist, who died a number of years ago. She was born in Alexandria, where her father conducted one of the most popular schools of his day. Francis Miller, the husband of the lady now deceased, was a son of the late Robert H. Miller and spent the early part of his life in this city. He later became a member of the bar in Maryland and took a leading part in republican politics of the State. Mrs. Caroline Hallowell Miller was herself a trained and capable educator. She conducted the Stanmore School for girls at Sandy Spring. She was also an active member of the Woman's Suffrage Society, and, like all others of her family, was a prominent member of the Society of Friends. Three sons and one daughter survive her. Mrs. Miller's funeral will take place from Sandy Spring Meeting House tomorrow.

### Shot and Robbed.

On Saturday night an old colored man from Fairfax county, on his way home from Washington, where he had sold some truck in market, was asked by a colored youth at the Virginia end of the Aqueduct bridge be allowed to ride with him in his wagon. The old man assented, saying that the youth could ride a part of the way. When between Wedderburn and Fairfax, the old man told the youth that he must get out of the vehicle as the hills were high and his horse weak. The boy thereupon got out and going to the rear end of the vehicle shot the old man in the back, inflicting a serious wound. He then robbed his benefactor, stealing about $13 in silver and some paper money and made off. The old man was subsequently found in a helpless condition and was yesterday evening taken to a hospital in Washington for treatment. The colored youth who shot him has not been arrested.

### Labor Day.

This was a dies non in labor circles, a large majority of working men indulging in a holiday. The average number of labor day excursions went down the river, while many private parties were formed. The weather has been uncertain, and conditions have not been as favorable as desired. The banks and government offices were closed, and the postoffice observed Sunday hours. A large number of mechanics spent the day gunning. The electric cars transported many people to and from Mount Vernon, and games of baseball on the old fair grounds attracted many to that neighborhood.

### River Notes.

The steamer Washington arrived this morning from Norfolk about an hour late. Her officers reported having passed three schooners in the river on the way up. They also said that a series of rain storms, accompanied by considerable thunder and lightning, visited Norfolk yesterday, and that the steamer encountered similar weather on the way up the Chesapeake last night.

The schooner J. P. Robinson, loaded with lumber by Smoot &Co. has sailed for the lower Potomac.

### Fall of Plastering.

The falling of plastering from the kitchen ceiling of the residence of Mr. J. C. Richards, on south Royal street, last Saturday night, caused a scarce and considerable excitement in the neighborhood. The crash caused Mr. Richards' young daughter who was alone in the front part of the house, to faint, and several women in the neighborhood were terrified. Dr. Gorman was summoned and he experienced some difficulty in resuscitating the young woman who had swooned.

### The Weather.

The rain of Saturday night was followed yesterday by "muggy" conditions and occasional showers. The humidity of the atmosphere was uncomfortable, and comparatively few people were on the streets. The churches were not well attended. The Weather Bureau had forecasted cooler conditions for yesterday, but the prophecy was a total failure. There were rains again this morning, and the atmosphere was still sultry.

### Charges Against an Officer.

Chief Webster has filed with Mayor Paff charges of insubordination against Policeman Herbert Knight. The mayor will investigate the charges, tomorrow night. It is understood that Policeman Knight will at the same time ask for an investigation into a statement made by a negro woman during the trial of a case in the Police Court recently, to the effect that she had furnished him with liquor.

### Suicide From Steamer.

A. W. Hall, thirty-one years of age, handed his coat, collar and hat to a negro on the steamer River Queen yesterday afternoon while the boat lay at her wharf in Washington, and jumped overboard. He was rescued, but died later at the Emergency Hospital. The suicide lived in Baltimore. Hall was under the influence of liquor when he plunged overboard.

### Snake Stories.

Luther Hayden killed a moccasin snake on the shore near the transfer slip at the foot of Wilkes street yesterday, which, it is said, measured 4½ feet.

The snake that made its appearance in a yard on south Fairfax street a few weeks ago was found in the cellar in the neighborhood yesterday and dispatched.

### Street Improvements.

When the new paving shall have been completed on Prince and Lee streets, work will be commenced on Royal street, between King and Cameron. The material for this square has been ordered and it is expected to reach this city during the next few days.

### Personal.

An infant child of Mr. John Pettit, living at north Patrick street, died yesterday.

The remains of Arnold Shaver, the young man who died at the Alexandria Hospital Saturday morning from injuries received while at work on the railway improvements near here, were buried in Bethel Cemetery yesterday afternoon. J., tomorrow morning by Mr. B; Wheatley, for interment. The funeral services will be held at Mrs. Herndon's residence this afternoon at 4:30 o'clock. The services will be conducted by Rev. ### Letter From Panama.

Mr. Charles M. Cuviller, of this city, now in Panama, has sent a letter to relatives here. He states that he and Mrs. Cuvillier are well and that the latter will return home this month, while the writer will not leave for Alexandria until December. Mr. Cuvillier says he has been made superintendent of Division No. 2, now engaged in the work of constructing the canal, at a salary of $2,100 a year. He has charge of 25 plumbers and 50 helpers. The writer also says he expects to be appointed superintendent of plumbing for the city of Panama, which pays $250 a month. Mr. Cuvillier says Mr. L. G. Holcombe, formerly City Engineer of Alexandria, is one of the division engineers in Panama. He receives a salary of $7,500. The writer says he has killed two alligators and will bring their skins home with him in December. He also witnessed the killing of a 15-foot boa constrictor. Mr. Cuvillier's letter is lengthy, but interesting throughout, as he describes a number of interesting occurences which have come under his observation. He sends his regards to all his acquaintances and friends.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

Fred Johnston, arrested by Officers Ferguson and Arrington charged with destroying the property of Geo. Johnson, was dismissed, the charge having been withdrawn.

Four negroes, arrested by Officers Beach, Allen, Bell and Patterson charged with disorderly conduct and fighting, were fined $5 each.

Ollie Webster, colored, arrested by Officer Patterson charged with assaulting Reuben Lewis, was dismissed.

Charles Jones, colored, charged with keeping a disorderly house, was dismissed.

### A Variety of Scenes.

The extreme northern section of the city yesterday presented a variety of scenes. One man was engaged in violating the Sabbath by cutting weeds in order to form a path to his front door, another was building a stable and a certain individual was engaged in preaching. In the midst of all a venturesome man was being run out of the neighborhood with several dogs at his heels for incurring the displeasure of a man whose domestic felicity he was alleged to have interrupted.

### Free School Tickets.

The old reliable Spencerian Business College, corner 9th and D streets northwest, Washington, D. C., is controlled by Mr. and Mrs. R. P. W. Stuebi. They will pay your car fare if you take either the business course, shorthand and typewriting course, or the Ideal combination course by the monthly installment plan. See pages 9, 10 and 11 of special announcement. Call, write or telephone for information.

### Damage Suits.

A large number of damage suits against the Washington, Alexandria and Mt. Vernon Railway Company will be tried before Judge Nicol in the Circuit Court for Alexandria county this week. The special term of the court was opened this morning. Most of the suits are brought for personal injuries alleged to have been received in the accident on the road at Spring Park last March. Damages in sums ranging from a few hundred dollars to several thousand are sought. The case of Kraff against the road was called this morning and continued, pending a compromise. The other cases were all continued until tomorrow.

### The New Depot.

It is now said by railroad people that the new union depot west of Alexandria will be used for the first time next Sunday morning. A visit to the new structure this morning, however, showed this to be improbable, from the fact that considerable work has yet to be done in and around the building. All the concreting on what forms the colonnade on the east front remains to be done, as well as much work within the building. The tracks have been laid and ballasted.

### LOCAL BREVITIES.

The mercury got up to 80 again today.

How many birds will be "missed" in the marshes today?

A meeting of Alexandria Tent, No. 2, of Maccabees, will be held tonight.

The improvements now in progress at the station house are being rapidly prosecuted.

The regular monthly meeting of the Woman's Auxiliary will be held in Lee Camp Hall Tuesday at 8 p. m.

Complaint having been made to the Mayor that some of the sick poor are not receiving medical attention, the matter will be investigated.

The regular monthly meeting of R. E. Lee Camp, No. 2, Confederate Veterans, will be held in their hall, 806 Prince street, at 8 o'clock tonight.

Judging from the number of gun shot reports coming from the marshes nearby, one would suppose a wicked war on a small scale was being waged.

The pulpits of all the churches except that of the Second Presbyterian, were filled yesterday by the resident clergy and in many of them, it being the first Sunday in the month, communion services were held.

Mr. Samuel Jenkins, employed in the Baltimore and Ohio Railroad transfer service between this city and Shepherd's, had his collarbone broken while at work yesterday. Cars were being run aboard the barge at the time, and Mr. Jenkins, who was standing near the moving train, was struck by one of the cars. He was removed to his home on south Royal street, where he received surgical aid.

### Royal Arcanum,

A dispatch from Put-in-Bay, Ohio, says that Supreme Secretary Robson, of the Royal Arcanum, late Saturday night authorized the following statement;

"The special committee on assessments of the Supreme Council of the Royal Arcanum has reported to the body on the various petitions, resolutions, and protests in regard to the new rates. The report reaffirmed and defended the action of the Supreme Council at Atlantic City, in May, and recomended that no change be made in the rates. They further recommended an amendment to the laws, providing that any member sixty-five years of age or over, or hereafter reaching such age, may pay only one-half of the prescribed amount of assessment, and the balance, with 4 per cent. interest compounded annually, shall be charged against his benefit certificate, and deducted therefrom upon the payment of the benefit. They also recommended that a special fund be raised by the payment of 20 cents a year, to be used only for the relief of members of the rate of sixty-five years or over, whose circumstances are such that they are not able to pay a portion or the whole of their assessments.

"Although protesting delegates refused to be quoted until they have reported to their committees, it is thought they are less strongly opposed to the new rates than on coming here, although the feeling that they should not have been put forth without any notice to members still exists."

### Remedy for Tuberculosis.

A Vienna paper of recent issue calls attention to the latest tuberculosis remedy, which has been discovered by Professor Levi, of Milan. The remedy consists of nothing but hypodermic injections of a preparation the composition of which is still a secret, but the main ingredient of which is allotropic iodine. After 10 or 15 injections an astonishing increase in the weight of the patient results, and after 40 to 50 injections a complete cicatrization of the tubercles takes place and is followed by a complete cure.

Professor Levi discovered the extraordinary healing propereties of iodine 20 years ago, when making experiments with reference to glanders in horses. He extended his experiments to tuberculosis of cattle, which showed that iodine resulted in a rapid improvement of the animals.

Encourged by these surprising results, the scientist made the first experiments two years ago with human patients, with favorable results. Twenty persons have so far submitted to the injections, some of whom were in an advanced stage of tuberculosis of the lungs. Professor Levi made his first report concerning his discovery to King Victor Emmanuel, and will shortly proceed to Paris to deliver a lecture on his discovery before the Academy of Medical Sciences.

Second Annual September Sale of Furniture.

(33 1-3 to 50 per cent. below actual value.)

TODAY we began our Second Annual September Furniture Sale, eight carloads of High-grade Furniture being the result of our preparations for this coming event.

The success which crowned our initial efforts of last year has led us to make this a permanent feature of our business—an annual event—as sure in its coming as the return of the season.

We used as much care in selecting this furniture as we do in picking our regular stock. Our buyer went to the various factories, saw the furniture, and personally selected it. And we confined ourselves to the best manufacturers—the people whom we keep constantly on their mettle, turning out furniture for us that classes with our standard of construction and finish—and drew these supplies from them.

It is a remarkable exhibition. Remarkable in its scope, its variety including every kind of furniture required in the home. Remarkable for its excellence of design — remarkable in the values offered. And you may rest assured that there is as much good service and durability in the furniture offered at this sale as though you bought it at full price out of our regular stock.

Conditions favored us this year and we made the most of them. The best of the sale is not confined to a few small lines. Excellent values are offered in Parlor Furniture, Dining Room Furniture, Bed Room Furniture, Library Furniture, Office Furniture. The whole house is provided for in economies of the decisive sort.

So whether you wish to furnish a compact and cozy little flat, in an inexpensive manner, or wish to furnish a home in elegant style, the furniture is here—broad in variety and at special concessions in price, in either case.

Our Furniture Department is conveniently located in the sixth and seventh floors of the G street building, affording ample space and light to display to the best advantage this new stock.

The sale began this morning and will continue until further notice.

### Killed by a Boy.

A diminutive child was held by Coroner Armstrong for several hours in Pittsburg Pa., yesterday while he was questioned about the throwing of a stone into a railroad train which cost a man his life. July 17 last Alexander P. Campbell, a lumber dealer of Charleston, W. Va., seated in a Pullman car on the Baltimore and Ohio Railroad, was hit by a stone thrown through the window. He was taken off at the McKeesport Hospital where he died from a fractured skull. Thomas Delehanty, head of the Baltimore and Ohio detective service has been working on the case ever since to learn who threw the fatal stone. Tuesday on orders received from his chief, Detective Patrick Moran, of the Baltimore and Ohio, arrested George Toal, of McKeesport, aged nine years. Toal, when taken before the coroner, stoutly maintained that he never threw a stone at a train in his life. The coroner was almost bluffed but he kept at the boy and told him what the detectives had learned about him. The lad finally whimpered and admitted that he had thrown the stone which crashed through the Pullman car, and he also had watched the events following the death of Campbell and had kept "mum." The lad was permitted to go home with his sister, who promised to produce him at the inquest next Thursday.

### Disorders in Tangier.

A French Jew was found murdered at Tangier Saturday night. The murderers escaped.

The powerful tribe of Angeras is seeking to force the brigand Raisouli to meet it in open battle, relying on their superiority in numbers to win. The Angeras raided three villages under Raisouli's authority near Tangier, carrying off large herds of cattle and sheep, a portion of which was the property of Europeans. Raisouli collected a band of his followers and started in pursuit, and in several skirmishes that ensued several men on both sides were killed or wounded.

The suburbs of Tangier have been deserted by Europeans. The Angeras are seeking to capture Europeans and hold them for ransom. The Moroccan authorities are powerless, as they fear Raisouli and the Angeras.

The Moroccan authorities have lodged a protest with the German consul at Casablanca accusing his colleague at Rabat with complicity in the landing of a large amount of contraband of war at the port of Fellalab.

### The Colonel's Waterloo.

Colonel John M. Fuller, of Honey Grove, Texas, nearly met his Waterloo, from Liver and Kidney trouble. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." Sold, and guaranteed to cure Dyspepsia, Billiousness and Kidney Disease, by E. S. Leadbeater & Sons, druggists, at 50c a bottle.
